City of Falls Church Requests Immediate Help in Conserving Water

FALLS CHURCH, VA. – The City of Falls Church is requesting that **all of its customers inside the Capital Beltway** conserve water until Saturday morning. Areas within and near the City of Falls Church and Seven Corners are experiencing low pressure as a result of a water main break. Customers may experience low water pressure between now and early Saturday morning until this water main break is repaired.

At approximately 1:30 pm, Friday July 23, a 20-inch water main broke in Kirby Road between Great Falls Street and Westmoreland Street. City crews expect repairs to take until approximately 3 a.m. Saturday, July 24, 2004. Full water service will be restored to affected customers at that time.

Both lanes of Kirby Road between Great Falls Street and Westmoreland Street are closed to all traffic except residents in the affected area.

Both the fire and police departments for the City as well as for Fairfax County have been notified.

Further information will be provided on this water main break as it becomes available.
